Northwestern | CHEMISTRY

CV to Resume - Virtual Workshop

Presented By:

Elysse Longiotti, MA, MS

Assistant Director of Student Career Advising
Northwestern Career Advancement

Wednesday, 15 July Noon-1:00 p.m.

Register: morgan.eklund@northwestern.edu

AbbVie Virtual Recruiting at NU

AbbVie will be conducting a virtual recruiting event on August 25. If you are interested in being considered for an interview, please email Sophie Tidd your resume and research summary no later than July 27th at 9:00 a.m. sophie.tidd@northwestern.edu. AbbVie will then review the submissions and select candidates with whom they would like to meet.

Inventing
the future of
medicine.

AbbVie Informational
Session:

August 25, 2020

9 – 10:30 a.m.

via Zoom

Interviews to follow

Possibilities.™

Teri Odom Receives 2020 RSC Centenary Prize

Congratulations to Professor Teri Odom. Teri was awarded a 2020 Centenary Prize from the Royal Society of Chemistry for “seminal work on multi-scale materials that enable new ways to achieve ultrafast, coherent, and directional light emission at the nanoscale.” <https://www.rsc.org/awards-funding/awards/2020-winners/professor-teri-odom/>

These prizes are awarded to outstanding chemists, who are also exceptional communicators, from overseas to give lectures in the British Isles. Because of the pandemic, these lectures will be delivered at a later date.

Our department has had a strong record of award recipients, including Chad Mirkin, Fraser Stoddart, Rick Silverman, Tobin Marks, and Jim Ibers.

REACT virtual instrumentation seminar series For The General User

Next Presentation Topic: Infrared Spectroscopy

Presented by: Selim Alayoglu (REACT)

Tuesday, June 30th, 1pm-3pm (Central Time)

Please register at: <https://northwestern.zoom.us/meeting/register/tJYvdOqurjovHdx5FbCKKivF4gxDnEt6X4CI>

Conducting scientific research requires the use of a vast array of instrumentation and tools. Even though we can't all be experts with every tool we use, **safe** and **effective** use of instrumentation requires practical knowledge about basic instrument components and standard experimental procedures. This weekly series will draw on the expertise of core facility experts to provide you with practical information and valuable resources about using some of the most common tools in materials and chemistry research, with a special emphasis on fluid systems.

If you have news or opportunities to share please email Morgan Eklund at morgan.eklund@northwestern.edu
