

**2014 WEEKLY BULLETIN**  
**DEPARTMENT OF CHEMISTRY, NORTHWESTERN UNIVERSITY**  
**EVANSTON, ILLINOIS**  
**March 24, 2014**

Tuesday, March 25:                    *Third Year Organic Seminar: Heeseon An (Statsyuk Group)*  
Ryan Hall 4003  
11:00am – 12:00pm

***For full schedule, including Center events, please see the Department Calendar:***  
<http://www.chemistry.northwestern.edu/events/calendar.html>

**BIP**

Meets every Friday at 3:00pm in Tech K140

**Arrivals**

There were no new arrivals last week

**Opportunities**

**Fixed Term General Chemistry Instructor at Michigan State University** MSU invites applications for a fixed-term, full-time, one-year General Chemistry Instructor position in the Lyman Briggs College (LBC), an undergraduate science and liberal arts community (<http://lymanbriggs.msu.edu/>) We are searching for a creative and pedagogically oriented individual to join the LBC Chemistry group to fill this temporary position. The successful candidate will teach introductory chemistry lecture and laboratory at LBC during the 2014--2015 academic year.

The ideal candidate should have disciplinary or pedagogical research interests in Chemistry or Chemical Education. Ideal candidates will be broadly trained in chemistry and enthusiastic about joining the community of teaching-focused faculty within LBC. This position requires a strong commitment to teaching undergraduates and active learning pedagogical techniques. The position offers exciting opportunities for candidates interested in teaching in a small, liberal-arts college environment with all of the resources provided by a large "Big 10" research university. Requirements include a strong record of teaching and research, and a Ph.D. in Chemistry or Chemical Education.

Founded in 1967, LBC is a vibrant undergraduate, residential, liberal arts college at MSU focusing on the study of science and its interactions with society. The LBC curriculum integrates natural sciences and mathematics courses with courses in the history, philosophy, and sociology of science. The LBC student body is 60% women and 20% students of color; also, 20% belong to MSU's Honors College. The faculty works closely with students in small classes and with student groups such as the Briggs Multi-cultural Alliance and Women in Science.

This position is listed on the MSU Applicant Page, Posting # 9205. Applications must be uploaded to MSU's online job application site (<http://jobs.msu.edu>) and should include a cover letter, CV, and teaching portfolio, and copies of up to three representative publications. For teaching portfolio details see <http://lymanbriggs.msu.edu/faculty/openPositions.cfm> In addition, three letters of recommendation must be sent electronically by the recommenders through the application system. Letters should address the candidate's teaching experience, potential for excellence, and research scholarship. Review of applications will begin

immediately and will continue until X. Questions regarding this position may be directed to Dr. Robert LaDuca, Professor of Chemistry, Associate Dean of Lyman Briggs College, at laduca@msu.edu, or at 919 E. Shaw Lane; Room E---35; Michigan State University; East Lansing, MI 48825---1107.

MSU is an affirmative action, equal opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities

**Visiting Assistant Professor of Chemistry at Loras College** is accepting applications for a full-time, non-tenure track position available in the Division of Molecular and Life Sciences beginning in Fall 2014. The successful candidate will teach: Quantitative Analysis for chemistry and biochemistry majors, Instrumental Analysis for chemistry majors, as well as laboratory sections of general chemistry

**EDUCATION AND EXPERIENCE:** Doctorate in analytical chemistry preferred

**COMPENSATION:** Commensurate with qualifications, education and experience. Fringe benefits include medical/dental/life/disability insurance, flexible spending plan, family membership in Graber Sports Center/San Jose Pool, free admission to many college events and free off-street parking.

**DIVISION OF MOLECULAR AND LIFE SCIENCES** has 11 full-time faculty members and a full-time laboratory technician. The division offers course work in the academic areas of Chemistry, Neuroscience and Biology. Degrees offered include B.S. in Biology, Chemistry, Biochemistry, Neuroscience, and Secondary Education Science Teaching. The chemistry program has extensive instrumentation including a 300 MHz broadband NMR, triple quad GC/MS, FTIR, AA, HPLC, Spectrofluorometer, DSC, TGA, DTA, UV-Vis spectrometers, and a recombinant DNA laboratory. Quantum Chemistry software and hardware are available. Every student has a college provided laptop computer, computers are integrated into many of the division classes and laboratories.

**THE COLLEGE:** Founded in 1839, Loras College is a Catholic, four-year, coeducational, liberal arts institution with preprofessional and career preparation and dedicated to high academic, ethical and moral standards. The student body consists of approximately 1,600 students, over 90 percent of who are full-time undergraduates. Candidates will be expected to support the mission of the College.

**THE COMMUNITY:** Loras College's 60 acre campus is located on one of Dubuque's highest bluffs, overlooking the Mississippi River at the junction of the states of Iowa, Illinois and Wisconsin, about 3 hours west of Chicago. Dubuque's population is approximately 60,000 and its nineteenth century architecture is woven into limestone bluffs and provides a picturesque backdrop to the river landscape. Many residential and commercial areas have been designated as historical districts to preserve Dubuque's unique heritage. Its strong education base supports numerous cultural activities, and in addition, there are sporting events, shopping facilities, schools, and churches that are convenient to its residents. The climate has marked seasons with a comfortable summer, cool spring and fall, and a winter that encourages a variety of sports that have in recent years attracted a growing tourism industry.

**APPLICATION DEADLINE:** Review of applications begins April 3, 2014. For more information contact, Dr. David Speckhard ([david.speckhard@loras.edu](mailto:david.speckhard@loras.edu)) or call 563-588-7133.

**APPLICATION.** Please send your materials to [David.speckhard@loras.edu](mailto:David.speckhard@loras.edu) : letter of application, curriculum vitae and the names of three references with contact information . AA/EOE. Women and minorities encouraged to apply. Please visit [www.loras.edu](http://www.loras.edu) for additional information about Loras College.

**The Center for the Study of the Presidency & Congress** is a non-partisan organization that offers a non-resident internship designed to promote interest in public policy and encourage leadership.

The Center's Presidential Fellows Program consists of two components: a Fall Leadership Conference and the Spring Symposium. Fellows meet government officials, public policy leaders, and representatives from prestigious think-tanks; are assigned a mentor; and must participate in a panel discussion and deliver an original research paper during the Spring Symposium.

For more information, visit <http://www.thepresidency.org/programs/presidential-fellows-program>

Northwestern holds an internal competition to choose one representative for this fellowship.

Eligibility: Sophomores and juniors (in any major) who have demonstrated interest in public policy, the institution of the presidency, or Congress, and a GPA of 3.6 or higher.

Application requirements:

- A 300-word essay that details your interest in the program
- List one or two potential research topics
- Résumé
- Unofficial transcript
- Name of at least one Northwestern faculty member who is aware of your interest in public policy and/or research

All application materials should be submitted to: [fellowships@northwestern.edu](mailto:fellowships@northwestern.edu)

Interested? Contact Jason Kelly Roberts [Jason-roberts@northwestern.edu](mailto:Jason-roberts@northwestern.edu)

Internal application deadline is Wednesday April 17, 2014 at Noon.

**The National Research Council of the National Academies** sponsors a number of awards for graduate, postdoctoral and senior researchers at [participating federal laboratories and affiliated institutions](#). These awards include generous stipends ranging from \$42,000 - \$80,000 per year for recent Ph.D. recipients, and higher for additional experience. [Graduate](#) entry level stipends begin at \$30,000. These awards provide the opportunity for recipients to do independent research in some of the best-equipped and staffed laboratories in the U.S. Research opportunities are open to U.S. citizens, permanent residents, and for some of the laboratories, foreign nationals.

Detailed program information, including online applications, instructions on [how to apply](#) and a [list of participating laboratories](#), is available on the NRC Research Associateship Programs [Website](#) (see link above).

Questions should be directed to the NRC at 202-334-2760 (phone) or [rap@nas.edu](mailto:rap@nas.edu).

There are four annual review cycles.

Review Cycle: **February**; Opens December 1; Closes February 1

Review Cycle: **May**; Opens March 1; Closes May 1

Review Cycle: **August**; Opens June 1; Closes August 1

Review Cycle: **November**; Opens September 1; Closes November 1

Applicants should contact prospective Adviser(s) at the lab(s) prior to the application deadline to discuss their research interests and funding opportunities. More detailed information and an online application can be found at [www.nationalacademies.org/rap](http://www.nationalacademies.org/rap).
