

Department of Chemistry – Expense Report Guidelines

Expense Reports / Business Office Contact: [Lynn Mandenberg](#)

Employees of the university (i.e., persons who are paid regularly by the university) are able to enter their own expense reports for reimbursement using the NUFinancials System. If you need access to the NUFinancials System, please see [Aaron Jones](#) or [Ann Wheatley](#) in the Business Office, [Tech K130](#). All travel by a staff member, post-doc, or graduate student must have prior approval from his or her supervisor. Please see the [Department of Chemistry's Travel Policy](#) for information on the request process.

Reimbursements must be processed within 30 days after returning from travel. *If the expense report is not submitted within 90 days from return of travel, a ['90 Day Exception'](#) form must be included.*

Only one expense report may be created per trip. If any issues arise while entering data onto the report, contact the Business Office for assistance – do not create a new expense report.
